Contents

This volume contains two supplements

Nr. 1: International Symposium on Epithelial Transport: Models, Tools and Advances S 1–S 172

Nr. 2: Abstracts of the 62nd meeting of the Deutsche Physiologische Gesellschaft, September 30–October 4, 1985, Berlin R 1–R 72

Akasu, T., see Kaibara, K., et al. 24

Almers, W., see Palade, P. T. 91

Altringham, J. D. see Johnston, I. A. 136

Amorena, C., see Brisolla-Diuana, A., et al. 209

Arner, A., see Hellstrand, P. 323

Bankir, L., see Trinh-Trang-Tan, M. M., et al. 216

Barlet, C., Ben Abdelkhalek, M., Doucet, A.
Sites of thyroid hormone action on Na-K-ATPase along the rabbit nephron 52

Bassett, A. L., see Lodge, N. J., et al. 37

Baxendale, L. M., see Helman, S. I., et al. S 71

Beck, F., see Dörge, A., et al. S 8

Beck, F., Dörge, A., Rick, R., Thurau, K.
Osmoregulation of renal papillary cells S 28

Ben Abdelkhalek, M., see Barlet, C., et al. 52

Benoit, E., Dubois, J. M.
Cooperativity of tetrodotoxin action in the frog node of Ranvier 237

Berger, E., see Haag, K., et al. S 67

Beyenbach, K. W., see Helman, S. I., et al. S 71

Biondi, A., see Whittembury, G., et al. S 17

Blangé, T., see Stienen, G. J. M. 5

Blangé, T., see Stienen, G. J. M., et al. 19

Blangé, T., Stienen, G. J. M.
Transmission phenomena and early tension recovery in skinned muscle fibres of the frog 12

Bolívar, J. J., see Cereijido, M., et al. S 147

Bonjour, J.-P. see Caverzasio, J. 395

Brisolla-Diuana, A., Amorena, C., Malnic, G.
Transfer of base across the basolateral membrane of cortical tubules of rat kidney 209

Budohoski, L.
Exercise-induced changes in lipoprotein lipase activity (LPLA) in skeletal muscle of the dog 188

Burckhardt, B.-Ch., see Yoshitomi, K., et al. 360

Carpi-Medina, P., see Whittembury, G., et al. S 17

Cavalié, A., McDonald, T. F., Pelzer, D., Trautwein, W.
Temperature-induced transitory and steady-state changes in the calcium current of guinea pig ventricular myocytes 294

Caverzasio, J., Bonjour, J.-P.
Expression of chronic thyroparathyroidectomy on phosphate transport in whole kidney and proximal luminal membranes during phosphate deprivation 395

Cereijido, M., Bolívar, J. J., Lázaro, A.
A oua bain resistant epithelial cell that protects the wild type in Co-cultures S 147

Chan, M., see Györy, A. Z., et al. S 136

Chang, H., Yamashita, N., Ogata, E., Kurokawa, K.
Hyperpolarizing membrane potential changes in a cloned monkey kidney cell line 223

Cuthbert, A. W.
Regulation of transepithelial ion transport by intracellular calcium ions S 127

Davies, C. T. M., see Young, K., et al. 384

Davis, J.M., see Häberle, D. A. S 131

DeFeo, T. T., see Morgan, K. G., et al. 77

de Hemptinne, A., see Vanheel, B. 118

De Vries, W. R., see Schrikker, A. C. M., et al. 389

DiBona, D. R.
Functional analysis of tight junction organization S 59

Dietl, P., see Oberleithner, H., et al. S 110

DiStefano, A., Wittner, M., Schlatter, E., Lang, H. J., Englert, H., Greger, R.
Diphenylamine-2-carboxylate, a blocker of the Cl^--conductive pathway in Cl^--transporting epithelia S 95

Dörge, A., see Beck, F., et al. S 28

Dörge, A., see Thurau, K. S 1

Dörge, A., Rick, R., Beck, F., Thurau, K.
Cl transport across the basolateral membrane in frog skin epithelium S 8

Dóra, E.
Effect of "flow anoxia" and "non flow anoxia" on the NAD/NADH redox state of the intact brain cortex of the cat 148

Doucet, A., see Barlet, C., et al. 52

Doucet, A., see Trinh-Trang-Tan, M. M., et al. 216

Doyle, T. B., Forrester, T.
Appearance of adenosine triphosphate in the perfusate from working frog heart 80

Dubois, J. M., see Benoit, E. 237

El Mernissi, G., see Trinh-Trang-Tan, M. M., et al. 216

Englert, H., see DiStefano, A., et al. S 95

Erlij, D., see Schoen, H. F. S 33

Filippi, G. M., see Passatore, M., et al. 297

Finger, W.
Excitatory transmitter release induced by high concentrations of γ-aminobutyric acid (GABA) in crayfish neuromuscular junctions 265

Finke, R., see Kirchheim, H. R., et al. 127

Forrester, T., see Doyle, T. B. 80

Friedlaender, M. M., Wald, H., Popovtzer, M. M.
The effect of acute saline volume expansion on renal NA-K-ATPase 170

Fritzsch, G., see Ullrich, K. J., et al. S 106

Frömter, E., see Schettino, T., et al. 58

Frömter, E., see Yoshitomi, K. S 121

Frömter, E., see Yoshitomi, K., et al. 360

Fromm, M., Schulzke, J.-D., Hegel, U.
Epithelial and subepithelial contributions to transmural electrical resistance of intact rat jejunum, in vitro 400

Futterlieb, A. see Link, L., et al. 66

Gelband, H., see Lodge, N. J., et al. 37

Gerok, W., see Haag, K., et al. S 67

Giebisch, G., see Koeppen, B. S 143

González, E., see Whittembury, G., et al. S 17

Grassi, C., see Passatore, M., et al. 297

Greger, R., see DiStefano, A., et al. S 95

Greger, R. see Schlatter, E. 367

Gstraunthaler, G., see Paulmichl, M., et al. 102

Györy, A. Z., Chan, M., Reddy, S.
Inhibitory effects of harvested proximal tubular fluid on J_v and ΔcNa during acute saline volume expansion in the rat S 136

Haag, K., Lübcke, R, Knauf, H., Berger, E., Gerok, W.
Determination of rheogenic ion transport in rat proximal colon in vivo S 67

Hackenthal, E., see Kirchheim, H. R., et al. 127

Häberle, D. A., Davis, J.M.
Regulation of proximal tubular fluid reabsorption in the rat kidney S 131

Hagenbuch, B., Stange, G., Murer, H.
Transport of sulphate in rat jejunal and rat proximal tubular basolateral membrane vesicles 202

Hamprecht, B., see Reiser, G. 260

Handler, J. S., Moran, A.
Regulation of expression of the sodium-coupled hexose transporter in cultured LLC-PK1 epithelia S 163

Hannafin, J., see Kinne, R., et al. S 101

Hanrahan, J. W., see Lewis, S. A. S 83

Hashimoto, M., Nagai, M., Iriki, M.
Comparison of the action of prostaglandin with endotoxin on thermoregulatory response thresholds 1

Hautmann, M., Schnell, K. F.
Concentration dependence of the chloride selfexchange and homoexchange fluxes in human red cell ghosts 193

Hayashi, H., see Saito, Y., et al. 108

Hegel, U., see Fromm, M., et al. 400

Hellstrand, P., Arner, A.
Myosin light chain phosphorylation and the cross-bridge cycle at low substrate concentration in chemically skinned guinea pig *Taenia coli* 323

Helman, S. I., Koeppen, B.M., Beyenbach, K. W., Baxendale, L. M.
Patch clamp studies of apical membranes of renal cortical collecting ducts S 71

Hillyard, S. D., see Van Driessche, W. S 77

Hirche, G.
Blocking and modifying actions of octanol on Na channels in frog myelinated nerve 180

Hofmann, F., see Kameyama, M., et al. 274

Hofmann, F., see Pfizer, G., et al. 70

Hori, T., see Nakashima, T., et al. 112

Horster, M. F., see Horster, M. F., et al. S 158

Horster, M. F., Fabritius, J., Schmolke, M.
The study of epithelial function by in vitro culture of nephron cells S 158

Hotta, K., see Oba, T. 354

Imbert-Teboul, M., see Trinh-Trang-Tan, M. M., et al. 216

Inoue, R., Kitamura, K., Kuriyama, H.
Two Ca-dependent K-channels classified by the application of tetraethylammonium distribute to smooth muscle membranes of the rabbit portal vein 173

Iriki, M., see Hashimoto, M., et al. 1

Isenberg, G., see Klöckner, U. 329, 340

Isenberg, G., see Wendt-Gallitelli, M. F. 310

Ivanov, V. E., see Pisarenko, O. I., et al. 377

Jansen, J. R. C., see Versprille, A. 226

Jentsch, T. J., see Wiederholt, M., et al. S 167

Johnston, I. A., Altringham, J. D.
Evolutionary adaptation of muscle power output to environmental temperature: force-velocity characteristics of skinned fibres isolated from antarctic, temperate and tropical marine fish 136

Kaibara, K., Akasu, T., Tokimasa, T., Koketsu, K.
β-Adrenergic modulation of the Na^+-K^+ pump in frog skeletal muscles 24

Kameyama, M., Hofmann, F., Trautwein, W.
On the mechanism of β-adrenergic regulation of the Ca channel in the guinea-pig heart 285

Keller, S. K., see Wiederholt, M., et al. S 167

Kinne, R., Koenig, B., Hannafin, J., Kinne-Saffran, E., Scott, D. M., Zierold, K.
The use of membrane vesicles to study the NaCl/KCl cotransporter involved in active transepithelial chloride transport S 101

Kinne-Saffran, E., see Kinne, R., et al. S 101

Kirchheim, H. R., Finke, R., Hackenthal, E., Löwe, W., Persson, P.
Baroreflex sympathetic activation increases threshold pressure for the pressure-dependent renin release in conscious dogs 127

Kitamura, K., see Inoue, R., et al. 173

Kiyohara, T., see Nakashima, T., et al. 112

Klöckner, U., Isenberg, G.
Action potentials and net membrane currents of isolated smooth muscle cells (urinary bladder of the guinea-pig) 329

Klöckner, U., Isenberg, G.
Calcium currents of cesium loaded isolated smooth muscle cells (urinary bladder of the guinea pig) 340

Knauf, H., see Haag, K., et al. S 67

Köhler, M., see Schettino, T., et al. 58

Koenig, B., see Kinne, R., et al. S 101

Koeppen, B., Giebisch, G.
Cellular electrophysiology of potassium transport in the mammalian cortical collecting tubule S 143

Koeppen, B. M., see Helman, S. I., et al. S 71

Koketsu, K., see Kaibara, K., et al. 24

Kreye, V. A. W., see Mühleisen, M. 234

Kuriyama, H., see Inoue, R., et al. 173

Kurokawa, K., see Chang, H., et al. 223

Lang, F., see Paulmichl, M., et al. 102

Lang, H. J., see DiStefano, A., et al. S 95

Larsen, E. H., Rasmussen, B. E.
A mathematical model of amphibian skin epithelium with two types of transporting cellular units S 50

Lázaro, A., see Cereijido, M., et al. S 147

Lewis, S. A., Hanrahan, J. W.
Apical and basolateral membrane ionic channels in rabbit urinary bladder epithelium S 83

Linares, H., see Whittembury, G., et al. S 17

Lindemann, B., see Warncke, J. S 89

Link, L., Weidmann, P., Probst, P., Futterlieb, A.
Renal handling of norepinephrine and epinephrine in the pig 66

Lodge, N. J., Bassett, A. L., Gelband, H.
Calcium exchange in the resting and electrically stimulated canine myocardium 37

Löwe, W., see Kirchheim, H. R., et al. 127

Loiselle, D. S.
The effect of temperature on the basal metabolism of cardiac muscle 163

Loiselle, D. S.
The rate of resting heat production of rat papillary muscle 155

Lübcke, R, see Haag, K., et al. S 67

Luijendijk, S. C. M. see Schrikker, A. C. M., et al. 389

Luke, R. G., see Rostand, S. G., et al. 46

Macknight, A. D. C.
The role of anions in cellular volume regulation S 12

Mallart, A., see Molgó, J. 349

Malnic, G., see Brisolla-Diuana, A., et al. 209

Mancinelli, E. see Peres, A. 29

McDonagh, M. J. N., see Young, K., et al. 384

McDonald, T. F., see Cavalié, A., et al. 294

Mills, J. W.
Ion transport across the exocrine glands of the frog skin S 44

Misek, D., see Salas, P. J. I., et al. S 152

Molgó, J., Mallart, A.
Effects of *Anemonia sulcata* toxin II on presynaptic currents and evoked transmitter release at neuromuscular junctions of the mouse 349

Montégut, M., see Trinh-Trang-Tan, M. M., et al. 216

Morad, M., see Tung, L. 274

Moran, A., see Handler, J. S. S 163

Morel, F., see Trinh-Trang-Tan, M. M., et al. 216

Morgan, K. G., DeFeo, T. T., Wenc, K., Weinstein, R.
Alterations of excitation-contraction coupling by platelet-derived growth factor in enzymatically isolated and cultured vascular smooth muscle cells 77

Mühleisen, M., Kreye, V. A. W.
Lack of soluble carbonic anhydrase in aortic smooth muscle of the rabbit 234

Münich, G., see Oberleithner, H., et al. S 110

Murer, H., see Hagenbuch, B., et al. 202

Nagai, M., see Hashimoto, M., et al. 1

Nagel, W.
Basolateral membrane ionic conductance in frog skin S 39

Nakashima, T., Hori, T., Kiyohara, T., Shibata, M.
Osmosensitivity of preoptic thermosensitive neurons in hypothalamic slices in vitro 112

Nishiyama, A., see Saito, Y., et al. 108

Nix, W. A., see Reichmann, H. 244

Nix, W. A., Reichmann, H., Schröder, M.J.
Influence of direct low frequency stimulation on contractile properties of denervated fast-twitch rabbit muscle 141

Novikova, E. B., see Pisarenko, O. I., et al. 377

Oba, T., Hotta, K.
Silver ion-induced tension development and membrane depolarization in frog skeletal muscle fibres 354

Oberleithner, H., Dietl, P., Münich, G., Weigt, M., Schwab, A.
Relationship between luminal Na^+/H^+ exchange and luminal K^+ conductance in diluting segment of frog kidney S 110

Ogata, E., see Chang, H., et al. 223

Ozawa, T., see Saito, Y., et al. 108

Palade, P. T., Almers, W.
Slow calcium and potassium currents in frog skeletal muscle: their relationship and pharmacologic properties 91

Papavassiliou, F., see Ullrich, K. J., et al. S 106

Passatore, M., Grassi, C., Filippi, G. M.
Sympathetically-induced development of tension in jaw muscles: the possible contraction of intrafusal muscle fibres 297

Paulmichl, M., Gstraunthaler, G., Lang, F.
Electrical properties of Madin-Darby canine kidney cells: Effects of extracellular potassium and bicarbonate 102

Paz-Aliaga, A., see Whittembury, G., et al. S 17

Pelzer, D., see Cavalié, A., et al. 294

Peres, A., Mancinelli, E.
Sodium conductance and the activation potential in *Xenopus laevis* eggs 29

Persson, P., see Kirchheim, H. R., et al. 127

Petersen, K.-U., Wehner, F., Winterhager, J. M.
Na/H exchange at the apical membrane of guinea-pig gallbladder epithelium: properties and inhibition by cyclic AMP S 115

Pfizer, G., Rüegg, J. C., Zimmer, M., Hofmann, F.
Relaxation of skinned coronary arteries depends on the relative concentrations of Ca^{2+}, calmodulin and active cAMP-dependent protein kinase 70

Pisarenko, O. I., Novikova, E. B., Serebryakova, L. I., Tskitishvili, O. V., Ivanov, V. E., Studneva, I. M.
Function and metabolism of dog heart in ischemia and in subsequent reperfusion: effect of exogenous glutamic acid 377

Popovtzer, M. M., see Friedlaender, M. M., et al. 170

Probst, P., see Link, L., et al. 66

Rasmussen, B. E., see Larsen, E. H. S 50

Reddy, S., see György, A. Z., et al. S 136

Reichmann, H., see Nix, W. A., et al. 141

Reichmann, H., Nix, W. A.
Changes of energy metabolism, myosin light chain composition, lactate dehydrogenase isozyme pattern and fibre type distribution of denervated fast-twitch muscle from rabbit after low frequency stimulation 244

Reiser, G., Hamprecht, B.
Bradykinin causes a transient rise of intracellular Ca^{2+}-activity in cultured neural cells 260

Rick, R., see Beck, F., et al. S 28

Rick, R., see Dörge, A., et al. S 8

Rodriguez-Boulan, E., see Salas, P. J. I., et al. S 152

Rorsman, P., Trube, G.
Glucose dependent K^+-channels in pancreatic β-cells are regulated by intracellular ATP 305

Rostand, S. G., Work, J., Luke, R. G.
Effect of reduced chloride reabsorption on renin release in the isolated rat kidney 46

Rüegg, J. C., see Pfizer, G., et al. 70

Rumrich, G., see Ullrich, K. J., et al. S 106

Saito, Y., Ozawa, T., Hayashi, H., Nishiyama, A.
Acetylcholine-induced change in intracellular Cl^- activity of the mouse lacrimal acinar cells 108

Salas, P. J. I., Vega-Salas, D., Misek, D., Rodriguez-Boulan, E.
Intracellular routes of apical and basolateral plasma membrane proteins to the surface of epithelial cells S 152

Schettino, T., Köhler, M., Frömter, E.
Membrane potentials of individual cells of isolated gastric glands of rabbit 58

Schlatter, E., see DiStefano, A., et al. S 95

Schlatter, E., Greger, R.
cAMP increases the basolateral Cl^--conductance in the isolated perfused medullary thick ascending limb of Henle's loop of the mouse 367

Schmolke, M., see Horster, M. F., et al. S 158

Schnell, K. F., see Hautmann, M. 193

Schoen, H. F., Erlij, D.
Basolateral membrane responses to transport modifiers in the frog skin epithelium S 33

Schrikker, A. C. M., De Vries, W. R., Zwart, A., Luijendijk, S. C. M.
Uptake of highly soluble gases in the epithelium of the conducting airways 389

Schröder, M.J., see Nix, W. A., et al. 141

Schulzke, J.-D., see Fromm, M., et al. 400

Schwab, A., see Oberleithner, H., et al. S 110

Scott, D. M., see Kinne, R., et al. S 101

Serebryakova, L. I., see Pisarenko, O. I., et al. 377

Shibata, M., see Nakashima, T., et al. 112

Siaume, S., see Trinh-Trang-Tan, M. M., et al. 216

Spring, K. R.
The study of epithelial function by quantitative light microscopy S 23

Stange, G., see Hagenbuch, B., et al. 202

Stienen, G. J. M., see Blangé, T. 12

Stienen, G. J. M., Blangé, T.
Tension responses to rapid length changes in skinned muscle fibres of the frog 5

Stienen, G. J. M., Blangé, T., Treijtel, B. W.
Tension development and calcium sensitivity in skinned muscle fibres of the frog 19

Studneva, I. M., see Pisarenko, O. I., et al. 377

Sugawara, M., see Tanishita, K., et al. 83

Tanasawa, I., see Tanishita, K., et al. 83

Tanishita, K., Tanasawa, I., Yamaguchi, T., Sugawara, M.
Facilitated diffusion of carbon dioxide in whole blood and hemoglobin solutions 83

Thurau, K., see Beck, F., et al. S 28

Thurau, K., see Dörge, A., et al. S 8

Thurau, K., Dörge, A.
Preface S 1

Tokimasa, T., see Kaibara, K., et al. 24

Trautwein, W., see Cavalié, A., et al. 294

Trautwein, W., see Kameyama, M., et al. 274

Treijtel, B. W., see Stienen, G. J. M., et al. 19

Trinh-Trang-Tan, M. M., Bankir, L., Doucet, A., El Mernissi, G., Imbert-Teboul M., Montégut, M., Siaume, S., Morel, F.
Influence of chronic ADH treatment on adenylate cyclase and ATPase activity in distal nephron segments of diabetes insipidus Brattleboro rats 216

Trube, G. see Rorsman, P. 305

Tskitishvili, O. V., see Pisarenko, O. I., et al. 377

Tung, L., Morad, M.
A comparative electrophysiological study of enzymatically isolated single cells and strips of frog ventricle 274

Ullrich, K. J., Papavassiliou, F., Rumrich, G., Fritzsch, G.
Contraluminal phosphate transport in the proximal tubule of the rat kidney S 106

Ussing, H. H.
Volume regulation and basolateral co-transport of sodium, potassium, and chloride ions in frog skin epithelium S 2

Van Driessche, W., Hillyard, S. D.
Quinidine blockage of K^+ channels in the basolateral membrane of larval bullfrog skin S 77
